

OUR HOSTEL IN SKÖVDE

During our stay in Skövde, we were accommodated in two/ three/ four and six bedded rooms in a very nice hostel.

Our group was like a large family in which everybody had a task; while someone were having breakfast, others were cleaning their bedrooms in order to be ready for school at about 8:30 a.m. Days were very busy because after school we had to organize dinner on our own to save as much money as possible.

Our daily routine was almost the same everyday except at weekends, because we had trips in the surrounding area, as planned. We will always remember the time spent in Sweden with pleasure, because it was a fantastic experience.
